Dear Ms. Franks:

Please refer to your supplemental new drug application dated March 19, 2007, received March 19, 2007, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act for Tygacil (tigecycline).

This "Changes Being Effected" supplemental new drug application has been submitted in response to an Agency letter issued October 27, 2006 requesting the incorporation of specific language regarding *Clostridium difficile* associated disease (CDAD) into the **WARNINGS** and **PRECAUTIONS** section, Information for Patients subsection of the labeling.

We completed our review of this application. This application is approved, effective on the date of this letter, for use as recommended in the labeling text dated March 19, 2007.

The final printed labeling (FPL) must be identical, to the enclosed labeling text dated March 19, 2007.

Please submit an electronic version of the FPL according to the guidance for industry titled *Providing Regulatory Submissions in Electronic Format - NDA*. Alternatively, you may submit 20 paper copies of the FPL as soon as it is available but no more than 30 days after it is printed. Individually mount 15 of the copies on heavy-weight paper or similar material. For administrative purposes, designate this submission "**FPL for approved supplement NDA 21-821/S-010**." Approval of this submission by FDA is not required before the labeling is used.

Submit content of labeling [21CFR 314/50(1)] in structured product labeling (SPL) format, as described at http://www.fda.gov/oc/datacouncil/spl.html, that is identical to the submitted labeling text dated March 19, 2007. Upon receipt and verification, we will transmit that version to the National Library of Medicine for posting in the DailyMed website.

If you issue a letter communicating important information about this drug product (i.e., a "Dear Health Care Professional" letter), we request that you submit a copy of the letter to this NDA and a copy to the following address:
