This "Changes Being Effected" supplemental new drug application provides to add a 150-count (starter) and a 170-count (refill) packaging size.

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the agreed-upon labeling text.

LABELING

Submit final printed labeling, as soon as they are available, but no more than 30 days after they are printed. The final printed labeling (FPL) must be identical to the enclosed labeling (150- and 170-count immediate container (bottle) labels, 150-count (starter pack) carton front and back panels, and 170-count (refill pack) carton label submitted on September 13, 2010), and must be in the "Drug Facts" format (21 CFR 201.66), where applicable.

Even though no revisions were made to the consumer information leaflet, "Read Me First Brochure," as part of this supplement, we request that you submit the consumer information leaflet as part of the FPL for this supplement to maintain a record of the complete labeling (count sizes and packaging configurations) for thisNDA.

The final printed labeling should be submitted electronically according to the guidance for industry titled "Providing Regulatory Submissions in Electronic Format – Human Pharmaceutical Product Applications and Related Submissions Using the eCTD Specifications (June 2008)." Alternatively, you may submit 12 paper copies, with 6 of the copies individually mounted on heavy-weight paper or similar material. For administrative purposes, designate this submission "**Final Printed Labeling for approved NDA 021887/S-005**." Approval of this submission by FDA is not required before the labeling is used.
