Casper Pharma, LLC  
Attention: Ravi Kumar Vatchavai  
Vice President, Regulatory Affairs  
2 Tower Center Boulevard, Suite 1101C  
East Brunswick, NJ 08816

Dear Ravi Kumar Vatchavai:

Please refer to your supplemental new drug application (sNDA) dated and received December 31, 2024, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Helidac Therapy (bismuth subsalicylate chewable tablets, metronidazole tablets, and tetracycline hydrochloride capsules).

We also refer to our letter dated December 16, 2024, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we have determined should be included in the labeling for tetracycline. This information pertains to the risk of fixed drug eruption.

This supplemental new drug application provides for revisions to the labeling for Helidac Therapy, consistent with our December 16, 2024, letter.

Other changes to the labeling not required under section 505(o)(4) of the FDCA:

**The PHARMACIST INFORMATION AND COUNSELING AID, the CONTRAINDICATIONS, Information for Patients, and Drug Interactions** sections were revised to remove language regarding concurrent with methoxyflurane because methoxyflurane was withdrawn.

### **APPROVAL & LABELING**

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

### **CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using

the FDA automated drug registration and listing system (eLIST), as described at FDA.gov.<sup>1</sup> Content of labeling must be identical to the enclosed labeling (text for the Prescribing Information), with the addition of any labeling changes in pending “Changes Being Effectuated” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.<sup>2</sup>

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(I)(1)(i)] in Microsoft Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

You may request advisory comments on proposed introductory advertising and promotional labeling. For information about submitting promotional materials, see the final guidance for industry *Providing Regulatory Submissions in Electronic and Non-Electronic Format-Promotional Labeling and Advertising Materials for Human Prescription Drugs*.<sup>3</sup>
