Dear Mandy Edwards:

Please refer to your supplemental new drug application (sNDA) dated and received January 13, 2025, and your amendments, submitted pursuant to section 505(b)(2) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Doryx (doxycycline hyclate delayed-release tablets) and Doryx MPC.

We also refer to our letter dated December 16, 2024, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we have determined should be included in the labeling for doxycycline. This information pertains to the risk of fixed drug eruption and psychiatric adverse events.

This supplemental new drug application provides for revisions to the labeling for Doryx and Doryx MPC, consistent with our December 16, 2024, letter.

Other changes to the labeling not required under section 505(o)(4) of the FDCA:

The **DRUG INTERACTIONS (7)** section was revised to **remove Subsection 7.6 Penthrane** regarding concurrent use with Penthrane because Penthrane was withdrawn.

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.
