BLA 103411/S-5198

SUPPLEMENT APPROVAL/
FULFILLMENT OF POSTMARKETING
COMMITMENT

Servier Pharmaceuticals LLC
Attention: Denisa Weinstein, MSc, RAC
Director, Global Regulatory Affairs
200 Pier Four Boulevard
Boston, MA 02210

Dear Ms. Weinstein:

Please refer to your supplemental biologics license application (sBLA), dated December 26, 2019, received December 26, 2019, submitted under section 351(a) of the Public Health Service Act for Oncaspar (pegaspargase) injection.

This Prior Approval supplemental biologics application provides for update to United States Prescribing Information (USPI) section 6.2, Immunogenicity.

APPROVAL & LABELING

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit, via the FDA automated drug registration and listing system (eLIST), the content of labeling [21 CFR 601.14(b)] in structured product labeling (SPL) format, as described at FDA.gov,[1] that is identical to the enclosed labeling (Prescribing Information) and include the labeling changes proposed in any pending "Changes Being Effected" (CBE) supplements.

Information on submitting SPL files using eLIST may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.[2]

[1] http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm

[2] We update guidances periodically. For the most recent version of a guidance, check the FDA Guidance Documents Database https://www.fda.gov/RegulatoryInformation/Guidances/default.htm.

The SPL will be accessible via publicly available labeling repositories.
Also within 14 days, amend all pending supplemental applications that include labeling changes for this BLA, including pending "Changes Being Effected" (CBE) supplements, for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 601.12(f)] in Microsoft Word format that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

REQUIRED PEDIATRIC ASSESSMENTS

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients (which includes new salts and new fixed combinations), new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication(s) in pediatric patients unless this requirement is waived, deferred, or inapplicable.

Because none of these criteria apply to your application, you are exempt from this requirement.

FULFILLMENT OF POSTMARKETING COMMITMENT

The submission dated December 26, 2019, also contains the final report for the following postmarketing commitment listed in the January 3, 2019, approval letter for BLA 103411/S-5196.

PMC 3563-2 Reanalyze the remaining immunogenicity samples from study DFCI 11-001 to determine the incidence of anti-pegaspargase and anti-PEG antibodies using the ADA validated assays from PMC 1. For any newly confirmed positive samples, evaluate the neutralizing capacity of the anti-pegaspargase antibodies with the validated integrated binding ADA/serum asparaginase activity assays. Submit the final study report in according with 21 CFR 601.12.

We have reviewed your submission and conclude that the above commitment is fulfilled.

We remind you that there is a postmarketing commitment listed in the January 3, 2019, approval letter that is still open.

PROMOTIONAL MATERIALS

You may request advisory comments on proposed introductory advertising and promotional labeling. For information about submitting promotional materials, see the

final guidance for industry *Providing Regulatory Submissions in Electronic and Non-Electronic Format—Promotional Labeling and Advertising Materials for Human Prescription Drugs*.[3]

As required under 21 CFR 601.12(f)(4), you must submit final promotional materials, and the Prescribing Information, at the time of initial dissemination or publication, accompanied by a Form FDA 2253. Form FDA 2253 is available at FDA.gov.[4] Information and Instructions for completing the form can be found at FDA.gov.[5]

REPORTING REQUIREMENTS

We remind you that you must comply with reporting requirements for an approved BLA (in 21 CFR 600.80 and in 21 CFR 600.81).

If you have any questions, call Suria Yesmin, Senior Regulatory Project Manager, at 301-348-1725.

Sincerely,

{See appended electronic signature page}
