NDA 202088/S-004

SUPPLEMENT APPROVAL

Citius Pharmaceuticals, LLC
Attention: Steven A. Kates, Ph.D.
Vice President
63 Great Road
Maynard, MA 01754

Dear Dr. Kates:

Please refer to your Supplemental New Drug Application (sNDA) dated November 9, 2012, received November 19, 2012, submitted pursuant to section 505(b)(2) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Suprenza (phentermine hydrochloride) orally dissolving tablets (ODT), 15 mg, 30 mg, and 37.5 mg.

We also refer to our letter dated October 16, 2012, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we believe should be included in the labeling for Suprenza. This information pertains to the risk of a drug-drug interaction between phentermine and topiramate, resulting in increases in phentermine exposure, thus potentially increasing the risk of phentermine-related adverse events.

This supplemental new drug application provides for revisions to the labeling for Suprenza, consistent with our October 16, 2012, letter.

We have completed our review of this supplemental application. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert), with the addition of any labeling changes in pending "Changes Being Effectuated" (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eLIST may be found in the guidance for industry titled "SPL Standard for Content of Labeling Technical Qs and As" at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
