9715 Key West Avenue  
Rockville, MD 20850

Dear Tami Martin:

Please refer to your supplemental new drug application (sNDA) dated and received February 16, 2024, pursuant to section 505(b)(2) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Oxtellar XR (oxcarbazepine) extended-release tablets.

This “Changes Being Effected” sNDA provides for the following updates to the Prescribing Information: the addition of information to subsection 12.3 Pharmacokinetics pertaining to pediatric patients with obesity as requested by the Division in the February 7, 2024, CBE-0 Supplement Request letter.

### **APPROVAL & LABELING**

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling with minor editorial revisions listed below and reflected in the enclosed labeling.

- In Highlights (HL) of the Prescribing Information:
  - White space was added before major section headings
  - Periods were revised for consistency (i.e., included after each sentence and before the cross references)
  - Extra spaces before the bulleted information were removed for consistency
  - A portion of the information under the Warnings and Precautions heading was relocated from the left column to the right column to make equal distribution
  - The italic font was removed for the cross reference numbers as in the examples for the HL section of labeling in the Guidance for Industry, Labeling for Human Prescription Drug and Biological Products – Implementing the PLR Content and Format Requirements

## **CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at FDA.gov.<sup>1</sup> Content of labeling must be identical to the enclosed labeling (text for the Prescribing Information and Medication Guide), with the addition of any labeling changes in pending “Changes Being Effectuated” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.<sup>2</sup>

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in Microsoft Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

## **PROMOTIONAL MATERIALS**

You may request advisory comments on proposed introductory advertising and promotional labeling. For information about submitting promotional materials, see the final guidance for industry *Providing Regulatory Submissions in Electronic and Non-Electronic Format-Promotional Labeling and Advertising Materials for Human Prescription Drugs*.<sup>3</sup>
