Actavis Laboratories UT, Inc.
577 Chipeta Way
Salt Lake City, UT 84108
Attention: Cherri Petrie
Executive Director, Regulatory Affairs

Dear Madam:

This letter is in reference to your abbreviated new drug application (ANDA) received for review on January 29, 2013, submitted pursuant to section 505(j) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) for Testosterone Topical Solution, 30 mg/actuation.

Reference is also made to the tentative approval letter issued by this office on July 29, 2015, the complete response letter issued by this office on February 24, 2017, and to your amendments received on April 17, June 29, and July 26, 2017.

We have completed the review of this ANDA and have concluded that adequate information has been presented to demonstrate that the drug is safe and effective for use as recommended in the submitted labeling. Accordingly, the ANDA is **approved**, effective on the date of this letter. The Office of Bioequivalence has determined your Testosterone Topical Solution, 30 mg/actuation, to be bioequivalent and, therefore, therapeutically equivalent to the reference listed drug (RLD), Axiron (testosterone) Topical Solution, 30 mg/actuation, of Eli Lilly and Company (Lilly).

The RLD upon which you have based your ANDA, Lilly's Axiron (testosterone) Topical Solution, 30 mg/actuation, is subject to periods of patent protection. The following patents and expiration dates are currently listed in the Agency's publication titled *Approved Drug Products with Therapeutic Equivalence Evaluations* (the "Orange Book"):

<u>U.S. Patent Number</u>	<u>Expiration Date</u>
8,419,307 (the '307 patent)	February 26, 2027
8,435,944 (the '944 patent)	September 27, 2027
8,784,878 (the '878 patent)	July 13, 2023

9,180,194 (the '194 patent)	June 2, 2026

Your ANDA contains paragraph IV certifications to each of the patents¹, under section 505(j)(2)(A)(vii)(IV) of the FD&C Act stating that the patents are invalid, unenforceable, or will not be infringed by your manufacture, use, or sale of Testosterone Topical Solution, 30 mg/actuation, under this ANDA. You have notified the Agency that Actavis Laboratories UT, Inc. (Actavis) complied with the requirements of section 505(j)(2)(B) of the FD&C Act and that litigation was initiated within the statutory 45-day period against Actavis for infringement of the ‘307, ‘944, ‘861, and ‘520 patents in the United States District Court for the Southern District of Indiana [Eli Lilly and Company, Eli Lilly Export S.A., and Acrux DDS PTY Ltd. vs. Perrigo Company, Perrigo Israel Pharmaceuticals Ltd., Actavis Laboratories UT, Inc. formerly known as Watson Laboratories Inc., Amneal Pharmaceuticals, LLC, Lupin Pharmaceuticals, Inc. and Lupin Ltd., Civil Action No. 13-cv-00851 (Consolidated)]. You have also notified the Agency that on August 22, 2016, the court issued a decision of non-infringement of the patent claims at issue in the litigation.²

Under section 506A of FD&C Act, certain changes in the conditions described in this ANDA require an approved supplemental application before the change may be made.

RISK EVALUATION AND MITIGATION STRATEGY (REMS) REQUIREMENTS

Section 505-1 of the FD&C Act authorizes FDA to require the submission of a risk evaluation and mitigation strategy (REMS), if FDA determines that such a strategy is necessary to ensure that the benefits of the drug outweigh the risks [section 505-1(a)]. In accordance with section 505-1(i) of the FD&C Act, a drug that is the subject of an ANDA under section 505(j) is subject to certain elements of the REMS required for the applicable listed drug.

Your final proposed REMS submitted on July 7, 2015, and appended to this letter is approved with your application. The REMS consists of a Medication Guide.

We remind you that you must include an adequate rationale to support a proposed REMS modification for the addition, modification, or removal of any goal or element of the REMS, as described in section 505-1(g)(4) of the FD&C Act.

Prominently identify the submission containing proposed modifications of the REMS with the following wording in bold capital letters at the top of the first page of the submission as appropriate:

**NEW SUPPLEMENT FOR ANDA 205328/S-000
CHANGES BEING EFFECTED IN 30 DAYS

or

¹ The Agency notes that the ‘307, ‘944, ‘878, ‘861, ‘520, ‘194, and ‘586 patents were submitted to the Agency after submission of your ANDA. Litigation, if any, with respect to these patents would not create a statutory stay of approval.

² *Findings of Fact and Conclusions of Law and Final Judgment Based Thereon*, at 208-09, Civil Action No. 13-0851 (S.D. Ind. Aug. 22, 2016).

To facilitate review of your submission, we request that you submit your proposed modified REMS and other REMS-related materials in Microsoft Word format.

Under section 506A of the FD&C Act, certain changes in the conditions described in this ANDA require an approved supplemental application before the change may be made.

ANNUAL FACILITY FEES

The Generic Drug User Fee Amendments of 2012 (GDUFA) (Public Law 112-144, Title III) established certain provisions with respect to self-identification of facilities and payment of annual facility fees. Your ANDA identifies at least one facility that is subject to the self-identification requirement and payment of an annual facility fee. Self-identification must occur by June 1st of each year for the next fiscal year. Facility fees must be paid each year by the date specified in the *Federal Register* notice announcing facility fee amounts. All finished dosage forms (FDFs) or active pharmaceutical ingredients (APIs) manufactured in a facility that has not met its obligations to self-identify or to pay fees when they are due will be deemed misbranded. This means that it will be a violation of federal law to ship these products in interstate commerce or to import them into the United States. Such violations can result in prosecution of those responsible, injunctions, or seizures of misbranded products. Products misbranded because of failure to self-identify or pay facility fees are subject to being denied entry into the United States.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit, using the FDA automated drug registration and listing system (eLIST), the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format, as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>, that is identical in content to the approved labeling (including the package insert, and any patient package insert and/or Medication Guide that may be required). Information on submitting SPL files using eLIST may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>. The SPL will be accessible via publicly available labeling repositories.

The Electronic Common Technical Document (eCTD) is CDER's standard format for electronic regulatory submissions. Beginning May 5, 2017, ANDAs must be submitted in eCTD format and beginning May 5, 2018, drug master files must be submitted in eCTD format. Submissions that do not adhere to the requirements stated in the eCTD Guidance will be subject to rejection. For more information please visit: www.fda.gov/ectd.

Sincerely yours,
