

ANDA 208098

ANDA TENTATIVE APPROVAL

Taro Pharmaceuticals U.S.A., Inc.
3 Skyline Drive
Hawthorne, NY 10532
Attention: Chitesh Naik
Manager, Regulatory Affairs

Dear Sir or Madam:

This letter is in reference to your abbreviated new drug application (ANDA) received for review on December 12, 2014, submitted pursuant to section 505(j) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) for Diclofenac Sodium Topical Solution USP, 2% w/w.

Reference is also made to the tentative approval letter issued by this office on February 3, 2017, and to any amendments there after.

We have completed the review of this ANDA, and have concluded that adequate information has been presented to demonstrate that the drug meets the requirements for approval under the FD&C Act. We have determined your Diclofenac Sodium Topical Solution USP, 2% w/w, to be bioequivalent and therapeutically equivalent to the reference listed drug (RLD), Pennsaid Topical Solution, 2% w/w, of Horizon Therapeutics Ireland DAC (Horizon).

However, we are unable to grant final approval to your ANDA at this time because of the exclusivity issue noted below. Therefore, the ANDA is **tentatively approved**. This determination is based upon information available to the Agency at this time (e.g., information in your ANDA and the status of current good manufacturing practices (cGMPs) of the facilities used in the manufacturing and testing of the drug product). This determination is subject to change on the basis of new information that may come to our attention.

The RLD upon which you have based your ANDA, Horizon's Pennsaid Topical Solution, 2% w/w, is subject to periods of patent protection. The following patents and expiration dates are currently listed in the Agency's publication titled *Approved Drug Products with Therapeutic Equivalence Evaluations* (the "Orange Book"):

<u>U.S. Patent Number</u>	<u>Expiration Date</u>
8,217,078 (the '078 patent)	July 10, 2029
8,252,838 (the '838 patent)	April 21, 2028
8,546,450 (the '450 patent)	August 9, 2030
8,563,613 (the '613 patent)	October 17, 2027
8,618,164 (the '164 patent)	July 10, 2029
8,741,956 (the '956 patent)	July 10, 2029
8,871,809 (the '809 patent)	October 17, 2027
9,066,913 (the '913 patent)	October 17, 2027
9,101,591 (the '591 patent)	October 17, 2027
9,132,110 (the '110 patent)	October 17, 2027
9,168,304 (the '304 patent)	October 17, 2027
9,168,305 (the '305 patent)	October 17, 2027
9,220,784 (the '784 patent)	October 17, 2027
9,339,551 (the '551 patent)	October 17, 2027
9,339,552 (the '552 patent)	October 17, 2027
9,370,501 (the '501 patent)	July 10, 2029
9,375,412 (the '412 patent)	July 10, 2029
9,415,029 (the '029 patent)	July 10, 2029
9,539,335 (the '335 patent)	October 17, 2027

Your ANDA contains paragraph IV certifications to each of these patents,¹ under section 505(j)(2)(A)(vii)(IV) of the FD&C Act stating that the patents are invalid, unenforceable, or will not be infringed by your manufacture, use, or sale of Diclofenac Sodium Topical Solution USP, 2% w/w, under this ANDA. You have notified the Agency that Taro Pharmaceuticals U.S.A., Inc. (Taro) complied with the requirements of section 505(j)(2)(B) of the FD&C Act. Litigation was initiated within the statutory 45-day period

against Taro for infringement of the '078, '838, '450, '613, '164, and '809 patents in the United States District Court for the District of New Jersey [Horizon Pharma Ireland Limited, HZNP Limited, and Horizon Pharma USA, Inc. v. Taro Pharmaceuticals USA, Inc. and Taro Pharmaceutical Industries, Ltd., Civil Action No. 15-02046]. You have also notified the Agency that this case has been dismissed.

However, we are unable to grant final approval to your ANDA at this time. Prior to the submission of your ANDA, another applicant or applicants submitted a substantially complete ANDA providing for Diclofenac Sodium Topical Solution, 2% w/w, and containing a paragraph IV certification. Your ANDA will be eligible for final approval on the date that is 180 days after the commercial marketing date identified in section 505(j)(5)(B)(iv) of the FD&C Act.

Please note that if FDA requires a Risk Evaluation and Mitigation Strategy (REMS) for a listed drug, an ANDA citing that listed drug also will be required to have a REMS. See section 505-1(i) of the FD&C Act.

RESUBMISSION

To request final approval, please submit an amendment titled "FINAL APPROVAL REQUESTED" with enough time to permit FDA review prior to the date you believe that your ANDA will be eligible for final approval. A request for final approval that contains no new data, information, or other changes to the ANDA generally requires a period of 3 months for Agency review. Accordingly, such a request for final approval should be submitted no later than 3 months prior to the date on which you seek approval. A request for final approval that contains substantive changes to this ANDA or changes in the status of the manufacturing and testing facilities' compliance with cGMPs will be classified and reviewed according to OGD policy in effect at the time of receipt. Applicants should review available agency guidance for industry related to amendments under the generic drug user fee program to determine the duration of Agency review needed to review the changes submitted. As part of this consideration, applicants should monitor any changes to the RLD that occur after tentative approval, including changes in labeling, patent or exclusivity information, or marketing status. The submission of multiple amendments prior to final approval may also result in a delay in the issuance of the final approval letter.

The amendment requesting final approval should provide the legal/regulatory basis for your request for final approval and should include a copy of a court decision, settlement or licensing agreement, or other information described in 21 CFR 314.107, as appropriate. It should also identify changes, if any, in the conditions under which the ANDA was tentatively approved, e.g., updated information such as final-printed labeling, chemistry, manufacturing, and controls data as appropriate. This amendment should be submitted even if none of these changes were made, and it should be designated clearly in your cover letter as a "FINAL APPROVAL REQUESTED"

In addition to the amendment requested above, the Agency may request, at any time prior to the date of final approval, that you submit an additional amendment containing information as specified by the Agency. Failure to submit either or, if requested, both types of amendments described above may result in a delay in the issuance of the final approval letter.

This drug product may not be marketed without final Agency approval under section 505(j) of the FD&C Act. The introduction or delivery for introduction into interstate commerce of this drug product before the final approval date is prohibited under section 301 of the FD&C Act. Also, until the Agency issues the final approval letter, this drug product will not be deemed approved for marketing under section 505(j) of the FD&C Act, and will not be listed in the Orange Book.

ANNUAL FACILITY FEES

The Generic Drug User Fee Amendments of 2012 (GDUFA) (Public Law 112-144, Title III) established certain provisions² with respect to self-identification of facilities and payment of annual facility fees. Your ANDA identifies at least one facility that is subject to the self-identification requirement and payment of an annual facility fee. Self-identification must occur by June 1st of each year for the next fiscal year. Facility fees must be paid each year by the date specified in the *Federal Register* notice announcing facility fee amounts.

All finished dosage forms (FDFs) or active pharmaceutical ingredients (APIs) manufactured in a facility that has not met its obligations to self-identify or to pay fees when they are due will be deemed misbranded. This means that it will be a violation of federal law to ship these products in interstate commerce or to import them into the United States. Such violations can result in prosecution of those responsible, injunctions, or seizures of misbranded products. Products misbranded because of failure to self-identify or pay facility fees are subject to being denied entry into the United States.

In addition, we note that GDUFA requires that certain non-manufacturing sites and organizations listed in generic drug submissions comply with the self-identification requirement. The failure of any facility, site, or organization to comply with its obligation to self-identify and/or to pay fees when due may raise significant concerns about that site or organization and is a factor that may increase the likelihood of a site inspection prior to approval. FDA does not expect to give priority to completion of inspections that are required simply because facilities, sites, or organizations fail to comply with the law requiring self-identification or fee payment.

For further information on the status of this ANDA or upon submitting an amendment to the ANDA, please contact Gwendolyn Murphy, Regulatory Project Manager, at (240) 402 - 9624.

Sincerely yours,

{See appended electronic signature page}

For Vincent Sansone, PharmD

Center for Drug Evaluation and Research

¹ The Agency notes that the '913, '591, '110, '304, '305, '784, '551, '552, '501, '412, '029, and '335 patents were submitted to the Agency after the submission of your ANDA. Litigation, if any, with respect to these patents would not create a statutory stay of approval.

² Some of these provisions were amended by the Generic Drug User Fee Amendments of 2017 (GDUFA II) (Public Law 115-52, Title III).
