

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration
Silver Spring MD 20993

NDA 208216/S-001

SUPPLEMENT APPROVAL

Actavis LLC, an indirect, wholly owned subsidiary of Teva Pharmaceuticals USA, Inc.
Attention: Rona LeBlanc-Rivera, PhD
Director, Regulatory Affairs, US Generics
425 Privet Road
Horsham, PA 19044

Dear Dr. LeBlanc-Rivera:

Please refer to your Supplemental New Drug Application (sNDA) dated August 24, 2017, received August 24, 2017, and your amendments, submitted pursuant to section 505(b)(2) of the Federal Food, Drug, and Cosmetic Act (FDCA) for azacitidine for injection, 100 mg/vial.

This Prior Approval supplemental new drug application provides for updates to the United States Prescribing Information (USPI) to include: new dosing information in Section 2 (Dosage Forms and Strengths), new information pertaining to tumor lysis syndrome in Section 5 (Warnings and Precautions), additional information for embryo-fetal toxicity in Section 5 (Warnings and Precautions), addition of tumor lysis syndrome and embryo-fetal toxicity to list of adverse reactions in section 6, updated information in Section 8 (Use in Specific Populations), new hepatic and renal information in Section 17 (Patient Counseling Information), and other minor editorial revisions throughout the USPI.

APPROVAL & LABELING

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert), with the addition of any labeling changes in pending "Changes Being Effected" (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

REQUIRED PEDIATRIC ASSESSMENTS

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients, new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication(s) in pediatric patients unless this requirement is waived, deferred, or inapplicable.

Because none of these criteria apply to your application, you are exempt from this requirement.

REPORTING REQUIREMENTS

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, call Jennifer Lee, Regulatory Project Manager, at (240) 402-4622.

Sincerely,

{See appended electronic signature page}

Albert Deisseroth, MD, PhD
