Dear Ms. Vanam:

Please refer to your supplemental new drug application (sNDA) dated and received November 12, 2021, and your amendments, submitted pursuant to section 505(b)(2) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Solosec (secnidazole) oral granules, 2 g.

We also refer to our letter dated September 01, 2021, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we believe should be included in the labeling for nitroimidazole products. This information pertains to the risk of irreversible hepatotoxicity/acute liver failure with fatal outcomes in patients with Cockayne syndrome.

This supplemental new drug application provides for revisions to the labeling for Solosec consistent with our September 01, 2021, safety labeling change notification letter.

The **CONTRAINDICATIONS (4)** section was revised to state that secnidazole is contraindicated in patients with Cockayne syndrome.

Other edits to reflect the change are included in the following sections in the attached Prescribing Information (PI): The **HIGHLIGHTS OF PRESCRIBING INFORMATION,** the **ADVERSE REACTIONS (6)** section, **Postmarketing Experience (6.2)** subsection. The Patient Package Insert (PPI) was also updated to align with the changes makde to the PI.
