Dear Dr. Schulteis:

Please refer to your supplemental new drug application (sNDA) dated August 23, 2021, received August 23, 2021, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Epidiolex (cannabidiol) 100 mg/mL oral solution.

This “Changes Being Effected” sNDA provides for changes to Subsection 2.4 *Administration Instructions*, of the Prescribing Information, to include language instructing to not use tubes made of polyurethane for administration via feeding tubes. Specific recommendations for length, diameter, and flushing of silicon nasogastric tubes have also been included.

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at FDA.gov.¹ Content of labeling must be identical to the enclosed labeling (text for the Prescribing Information, Medication Guide, and Instructions for Use), with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.
