

ANDA 211921

ANDA TENTATIVE APPROVAL

Sun Pharmaceutical Industries, Inc.
U.S. Agent for Sun Pharmaceutical Industries Limited
2 Independence Way
Princeton, NJ 08540
Attention: Juan Grijalva

Dear Juan Grijalva:

This letter is in reference to your abbreviated new drug application (ANDA) received for review on March 28, 2018, submitted pursuant to section 505(j) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) for Linagliptin and Metformin Hydrochloride Extended-Release Tablets, 2.5 mg/1,000 mg and 5 mg/1,000 mg.

Reference is also made to the complete response letter issued by this office on May 19, 2022, and to any amendments thereafter.

We have completed the review of this ANDA and have concluded that adequate information has been presented to demonstrate that the drug meets the requirements for approval under the FD&C Act. We have determined your Linagliptin and Metformin Hydrochloride Extended-Release Tablets, 2.5 mg/1,000 mg and 5 mg/1,000 mg to be bioequivalent and therapeutically equivalent to the reference listed drug (RLD), Jentaduetto XR Extended-Release Tablets, 2.5 mg/1,000 mg and 5 mg/1,000 mg, of Boehringer Ingelheim Pharmaceuticals, Inc. (Boehringer Ingelheim).

However, we are unable to grant final approval to your ANDA at this time because of the patent issue noted below. Therefore, the ANDA is **tentatively approved**. This determination is based upon information available to the Agency at this time (e.g., information in your ANDA and the status of current good manufacturing practices (cGMPs) of the facilities used in the manufacturing and testing of the drug product). This determination is subject to change on the basis of new information that may come to our attention. This letter does not address issues related to the 180-day exclusivity provisions under section 505(j)(5)(B)(iv) of the FD&C Act.

The RLD upon which you have based your ANDA, Boehringer Ingelheim's Jentaduetto XR Extended-Release Tablets, 2.5 mg/1,000 mg and 5 mg/1,000 mg, is subject to periods of patent protection. The following patents and expiration dates are currently listed in the Agency's publication titled *Approved Drug Products with Therapeutic Equivalence Evaluations* (the "Orange Book"):

<u>U.S. Patent Number</u>	<u>Expiration Date</u>
7,407,955 (the '955 patent)	May 2, 2025
8,119,648 (the '648 patent)	August 12, 2023
8,178,541 (the '541 patent)	August 12, 2023
8,673,927 (the '927 patent)	May 4, 2027
8,883,805 (the '805 patent)	November 26, 2025
9,155,705 (the '705 patent)	May 21, 2030
9,173,859 (the '859 patent)	May 4, 2027
9,415,016 (the '016 patent)	April 2, 2029
9,555,001 (the '001 patent)	March 6, 2033
10,022,379 (the '379 patent)	April 2, 2029

With respect to the '955, '648 and '541 patents, your ANDA contains paragraph III certifications to each of the patents under section 505(j)(2)(A)(vii)(III) of the FD&C Act stating that Sun Pharmaceutical Industries Limited (Sun) will not market Linagliptin and Metformin Hydrochloride Extended-Release Tablets, 2.5 mg/1,000 mg and 5 mg/1,000 mg prior to the expiration of the patents. Therefore, final approval of your ANDA may not be granted pursuant to section 505(j)(5)(B)(ii) of the FD&C Act until the '955 patent has expired, currently May 2, 2025.

Your ANDA contains paragraph IV certifications to the '927, '805, '705, '859, '016, '001 and '379 patents' under section 505(j)(2)(A)(vii)(IV) of the FD&C Act stating that the patents are invalid, unenforceable, or will not be infringed by your manufacture, use, or sale of Linagliptin and Metformin Hydrochloride Extended-Release Tablets, 2.5 mg/1,000 mg and 5 mg/1,000 mg, under this ANDA. You have notified the Agency that Sun complied with the requirements of section 505(j)(2)(B) of the FD&C Act, and that no action for infringement was brought against Sun Pharmaceutical within the statutory 45-day period.

Please note that if FDA requires a Risk Evaluation and Mitigation Strategy (REMS) for a listed drug, an ANDA referencing that listed drug also will be required to have a REMS. See section 505-1(i) of the FD&C Act.

REQUIREMENTS AND RECOMMENDATIONS POST APPROVAL

Under applicable statutes, regulations, and guidances, if your ANDA receives final approval, it may be subject to certain requirements and recommendations post approval, including requirements regarding changes to approved ANDAs, postmarketing reporting, promotional materials, and annual facility fees, among others. For information on post-approval requirements and recommendations for ANDAs and a list of resources for ANDA holders, we refer you to <https://www.fda.gov/drugs/abbreviated-new-drug-application-anda/requirements-and-resources-approved-andas>.

RESUBMISSION

To request final approval, please submit an amendment titled “FINAL APPROVAL REQUESTED” with enough time to permit FDA review prior to the date you believe that your ANDA will be eligible for final approval. A request for final approval that contains no new data, information, or other changes to the ANDA generally requires a period of 3 months for Agency review. Accordingly, such a request for final approval should be submitted no later than 3 months prior to the date on which you seek approval. A request for final approval that contains substantive changes to this ANDA or changes in the status of the manufacturing and testing facilities’ compliance with cGMPs will be classified and reviewed according to OGD policy in effect at the time of receipt. Applicants should review available agency guidance for industry related to amendments under the generic drug user fee program to determine the duration of Agency review needed to review the changes submitted. As part of this consideration, applicants should monitor any changes to the RLD that occur after tentative approval, including changes in labeling, patent or exclusivity information, or marketing status. The submission of multiple amendments prior to final approval may also result in a delay in the issuance of the final approval letter.

The amendment requesting final approval should provide the legal/regulatory basis for your request for final approval and should include a copy of a court decision, settlement or licensing agreement, or other information described in 21 CFR 314.107, as appropriate. It should also identify changes, if any, in the conditions under which the ANDA was tentatively approved, e.g., updated information such as final-printed labeling, chemistry, manufacturing, and controls data as appropriate. This amendment should be submitted even if none of these changes were made, and it should be designated clearly in your cover letter as a “FINAL APPROVAL REQUESTED.”

In addition to the amendment requested above, the Agency may request, at any time prior to the date of final approval, that you submit an additional amendment containing information as specified by the Agency. Failure to submit either or, if requested, both types of amendments described above may result in a delay in the issuance of the final approval letter.

This drug product may not be marketed without final Agency approval under section 505(j) of the FD&C Act. The introduction or delivery for introduction into interstate

commerce of this drug product before the final approval date is prohibited under section 301 of the FD&C Act. Also, until the Agency issues the final approval letter, this drug product will not be deemed approved for marketing under section 505(j) of the FD&C Act, and will not be listed in the Orange Book. Should you believe that there are grounds for issuing the final approval letter prior to May 2, 2025, you should amend your ANDA accordingly.

For further information on the status of this ANDA or upon submitting an amendment to the ANDA, please contact Adil Merchant, Regulatory Project Manager, at (240) 402 - 3505.

Sincerely yours,

{See appended electronic signature page}

Center for Drug Evaluation and Research

¹ The agency notes that the '379 patent was submitted to the Agency after submission of your ANDA. Litigation, if any, with respect to this patent would not create a statutory stay of approval.
