

ANDA 216971

**ANDA TENTATIVE APPROVAL**

Micro Labs USA Inc  
U.S. Agent for Micro Labs Limited  
220 Davidson Avenue, Suite 402  
Somerset, NJ 08873  
Attention: Umesh Jayakumar  
Associate Vice President

Dear Umesh Jayakumar:

This letter is in reference to your abbreviated new drug application (ANDA) received for review on December 20, 2021, submitted pursuant to section 505(j) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) for Netarsudil and Latanoprost Ophthalmic Solution, 0.02%/0.005%.

Reference is also made to the complete response letter issued by this office on March 9, 2023, and to any amendments thereafter.

We have completed the review of this ANDA and have concluded that adequate information has been presented to demonstrate that the drug meets the requirements for approval under the FD&C Act. We have determined your Netarsudil and Latanoprost Ophthalmic Solution, 0.02%/0.005% to be bioequivalent and therapeutically equivalent to the reference listed drug (RLD), Rocklatan Ophthalmic Solution, 0.02%/0.005%, of Alcon Laboratories, Inc. (Alcon).

However, we are unable to grant final approval to your ANDA at this time because of the patent issue noted below. Therefore, the ANDA is **tentatively approved**. This determination is based upon information available to the Agency at this time (e.g., information in your ANDA and the status of current good manufacturing practices (cGMPs) of the facilities used in the manufacturing and testing of the drug product). This determination is subject to change on the basis of new information that may come to our attention. This letter does not address issues related to the 180-day exclusivity provisions under section 505(j)(5)(B)(iv) of the FD&C Act.

The RLD upon which you have based your ANDA, Alcon's Rocklatan Ophthalmic Solution, 0.02%/0.005%, is subject to periods of patent protection. The following patents and expiration dates are currently listed in the Agency's publication titled *Approved Drug Products with Therapeutic Equivalence Evaluations* (the "Orange Book"):

<u>U.S. Patent Number</u>	<u>Expiration Date</u>
8,394,826 (the '826 patent)	November 10, 2030
8,450,344 (the '344 patent)	July 11, 2026
9,096,569 (the '569 patent)	July 11, 2026
9,415,043 (the '043 patent)	March 14, 2034
9,931,336 (the '336 patent)	March 14, 2034
9,993,470 (the '470 patent)	March 14, 2034
10,174,017 (the '017 patent)	January 27, 2030
10,532,993 (the '993 patent)	July 11, 2026
10,588,901 (the '901 patent)	March 14, 2034
10,654,844 (the '844 patent)	January 27, 2030
10,882,840 (the '840 patent)	July 11, 2026
11,021,456 (the '456 patent)	July 11, 2026
11,028,081 (the '081 patent)	January 27, 2030
11,185,538 (the '538 patent)	March 14, 2034
11,197,853 (the '853 patent)	March 14, 2034
11,618,748 (the '748 patent)	January 27, 2030

With respect to the '344, '569, '993, '840 and '456 patents, your ANDA contains paragraph III certifications to each of the patents under section 505(j)(2)(A)(vii)(III) of the FD&C Act stating that Micro Labs Limited (Micro Labs) will not market Netarsudil and Latanoprost Ophthalmic Solution, 0.02%/0.005% prior to the expiration of the patents. Therefore, final approval of your ANDA may not be granted pursuant to section 505(j)(5)(B)(ii) of the FD&C Act until the '344, '569, '993, '840 and '456 patents have expired, currently July 11, 2026.

Your ANDA contains paragraph IV certifications to the '826, '043, '336, '470, '017, '901, '844, '081, '538, '853 and '748 patents<sup>1</sup> under section 505(j)(2)(A)(vii)(IV) of the FD&C Act stating that the patents are invalid, unenforceable, or will not be infringed by your manufacture, use, or sale of Netarsudil and Latanoprost Ophthalmic Solution,

0.02%/0.005%, under this ANDA. You have notified the Agency that Micro Labs complied with the requirements of section 505(j)(2)(B) of the FD&C Act. Litigation was initiated within the statutory 45-day period against Micro Labs for infringement of the '826, '043, '336, '470, '017, '901, '844, '081, '538 and '853 patents in the United States District Court for the District of New Jersey [Aerie Pharmaceuticals, Inc. and Aerie Distribution, Inc. v Micro Labs Limited and Micro Labs USA, Inc., Civil Action No. 22-01365].

Therefore, final approval cannot be granted until:

1. a. the expiration of the 7.5-year period provided for in sections 505(j)(5)(B)(iii) and 505(j)(5)(F)(ii) of the FD&C Act,
  - b. the date the court decides<sup>2</sup> that the '826, '043, '336, '470, '017, '901, '844, '081, '538 and '853 patents are invalid or not infringed (see sections 505(j)(5)(B)(iii)(I), (II), and (III) of the FD&C Act), or
  - c. the '344, '569, '993, '840, '456, '826, '043, '336, '470, '017, '901, '844, '081, '538 and '853 patents have expired, and
2. The Agency is assured there is no new information that would affect whether final approval should be granted.

Please note that if FDA requires a Risk Evaluation and Mitigation Strategy (REMS) for a listed drug, an ANDA referencing that listed drug also will be required to have a REMS. See section 505-1(i) of the FD&C Act.

## **REQUIREMENTS AND RECOMMENDATIONS POST APPROVAL**

Under applicable statutes, regulations, and guidances, if your ANDA receives final approval, it may be subject to certain requirements and recommendations post approval, including requirements regarding changes to approved ANDAs, postmarketing reporting, promotional materials, and annual facility fees, among others. For information on post-approval requirements and recommendations for ANDAs and a list of resources for ANDA holders, we refer you to <https://www.fda.gov/drugs/abbreviated-new-drug-application-anda/requirements-and-resources-approved-andas>.

## **RESUBMISSION**

To request final approval, please submit an amendment titled "FINAL APPROVAL REQUESTED" with enough time to permit FDA review prior to the date you believe that your ANDA will be eligible for final approval. A request for final approval that contains no new data, information, or other changes to the ANDA generally requires a period of 3 months for Agency review. Accordingly, such a request for final approval should be submitted no later than 3 months prior to the date on which you seek approval. A request for final approval that contains substantive changes to this ANDA or changes in

the status of the manufacturing and testing facilities' compliance with cGMPs will be classified and reviewed according to OGD policy in effect at the time of receipt. Applicants should review available agency guidance for industry related to amendments under the generic drug user fee program to determine the duration of Agency review needed to review the changes submitted. As part of this consideration, applicants should monitor any changes to the RLD that occur after tentative approval, including changes in labeling, patent or exclusivity information, or marketing status. The submission of multiple amendments prior to final approval may also result in a delay in the issuance of the final approval letter.

The amendment requesting final approval should provide the legal/regulatory basis for your request for final approval and should include a copy of a court decision, settlement or licensing agreement, or other information described in 21 CFR 314.107, as appropriate. It should also identify changes, if any, in the conditions under which the ANDA was tentatively approved, e.g., updated information such as final-printed labeling, chemistry, manufacturing, and controls data as appropriate. This amendment should be submitted even if none of these changes were made, and it should be designated clearly in your cover letter as a "FINAL APPROVAL REQUESTED."

In addition to the amendment requested above, the Agency may request, at any time prior to the date of final approval, that you submit an additional amendment containing information as specified by the Agency. Failure to submit either or, if requested, both types of amendments described above may result in a delay in the issuance of the final approval letter.

This drug product may not be marketed without final Agency approval under section 505(j) of the FD&C Act. The introduction or delivery for introduction into interstate commerce of this drug product before the final approval date is prohibited under section 301 of the FD&C Act. Also, until the Agency issues the final approval letter, this drug product will not be deemed approved for marketing under section 505(j) of the FD&C Act, and will not be listed in the Orange Book.

For further information on the status of this ANDA or upon submitting an amendment to the ANDA, please contact Tom Ching, Regulatory Project Manager, at (301) 796 - 8445.

Sincerely yours,

*{See appended electronic signature page}*

- 
- <sup>1</sup> The Agency notes that the '748 patent was submitted to the Agency after submission of your ANDA. Litigation, if any, with respect to this patent would not create a statutory stay of approval.
- <sup>2</sup> This decision may be either a decision of the district court or the court of appeals, whichever court is the first to decide that the patent is invalid or not infringed.

Paul  
Levine
