CORRECTED SUPPLEMENT APPROVAL

Vertex Pharmaceuticals Incorporated
Attention: Ryan McGlynn, PhD
Manager, Regulatory Affairs
50 Northern Avenue
Boston, MA 02210

Dear Dr. McGlynn:

Please refer to your supplemental new drug application (sNDA) dated and received November 22, 2024, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Trikafta (elexacaftor/ tezacaftor/ ivacaftor).

We also refer to our approval letter dated December 20, 2024, which contained the following error: incorrect strength of the granules in Section 16 HOW SUPPLIED/STORAGE AND HANDLING of the Prescribing Information.

This corrected action letter incorporates the correction of the error. The effective action date will remain December 20, 2024, the date of the original letter.

We also refer to our letter dated October 22, 2024, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we have determined should be included in the labeling for Trikafta. This information pertains to the risk of drug-induced liver injury (DILI) leading to liver transplantation and death in patients with and without a history of liver disease taking Trikafta.

This supplemental new drug application provides for revisions to the labeling for Trikafta, consistent with our October 22, 2024, letter.

APPROVAL & LABELING

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

WAIVER OF ½ PAGE LENGTH REQUIREMENT FOR HIGHLIGHTS

Please note that we have previously granted a waiver of the requirements of 21 CFR 201.57(d)(8) regarding the length of Highlights of Prescribing Information.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at FDA.gov.¹ Content of labeling must be identical to the enclosed labeling (text for the Prescribing Information and Medication Guide), with the addition of any labeling changes in pending “Changes Being Effectuated” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.²

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in Microsoft Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

CARTON AND CONTAINER LABELING

Submit final printed carton and container labeling that are identical to the enclosed carton and container labeling, as soon as they are available, but no more than 30 days after they are printed.
