

BLA 761028/S-006

SUPPLEMENT APPROVAL

Amgen Incorporated
Attention: Augustus Kamassah
Senior Manager Biosimilars Regulatory Affairs
One Amgen Center Drive
MS 28-4-A
Thousand Oaks, CA 91320

Dear Mr. Kamassah:

Please refer to your supplemental biologics license application (sBLA), dated and received January 15, 2021, and your amendments, submitted under section 351(k) of the Public Health Service Act for MVASI (bevacizumab-awwb) injection.

This Prior Approval supplemental biologics application provides for revisions to the DOSAGE AND ADMINISTRATION (2), WARNINGS AND PRECAUTIONS (5), ADVERSE REACTIONS (6), and the PATIENT COUNSELING INFORMATION (17) sections of the package insert to add information regarding wound healing complications and postmarketing experience with adverse drug reactions arterial aneurysm, dissections, and rupture, to align with the reference product package insert.

Additionally, this supplemental application provides for other minor edits throughout the package insert, including those to align with the reference product package insert.

APPROVAL & LABELING

We have completed our review of this application. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

WAIVER OF HIGHLIGHTS ½ PAGE LENGTH REQUIREMENT FOR HIGHLIGHTS

Please note that we have previously granted a waiver of the requirements of 21 CFR 201.57(d)(8) regarding the length of Highlights of Prescribing Information.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit, via the FDA automated drug registration and listing system (eLIST), the content of labeling [21 CFR 601.14(b)] in structured product labeling (SPL) format, as described at

FDA.gov,¹ that is identical to the enclosed labeling (text for the Prescribing Information) and include the labeling changes proposed in any pending “Changes Being Effectuated” (CBE) supplements.

Information on submitting SPL files using eLIST may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.²

The SPL will be accessible via publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this BLA, including pending “Changes Being Effectuated” (CBE) supplements, for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 601.12(f)] in Microsoft Word format that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

REQUIRED PEDIATRIC ASSESSMENTS

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients (which includes new salts and new fixed combinations), new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication(s) in pediatric patients unless this requirement is waived, deferred, or inapplicable.

Because none of these criteria apply to your application, you are exempt from this requirement.

REPORTING REQUIREMENTS

We remind you that you must comply with reporting requirements for an approved BLA (in 21 CFR 600.80 and in 21 CFR 600.81).

¹ <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>

² We update guidances periodically. For the most recent version of a guidance, check the FDA Guidance Documents Database <https://www.fda.gov/RegulatoryInformation/Guidances/default.htm>.

If you have any questions, contact Gina Mehta, Regulatory Health Project Manager, at (301) 796-7910.

Sincerely,

{See appended electronic signature page}
