

BLA 761055/S-072

## SUPPLEMENT APPROVAL

Regeneron Pharmaceuticals, Inc.  
Attention: Elisa Babilonia, PhD  
Executive Director, Regulatory Affairs  
777 Old Saw Mill River Road  
Tarrytown, NY 10591

Dear Dr. Elisa Babilonia:

Please refer to your supplemental biologics license application (sBLA) received March 24, 2025, and your amendments, submitted under section 351(a) of the Public Health Service Act for Dupixent (dupilumab) injection.

We also refer to our letter dated January 24, 2025, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we have determined should be included in the labeling for dupilumab. This information pertains to the risk of new onset psoriasis, psoriatic arthritis, and vasculitis. Other associated changes were made to the RECENT MAJOR CHANGES section of the HIGHLIGHTS OF PRESCRIBING INFORMATION.

This supplemental biologics license application provides for revisions to the labeling for dupilumab. The agreed upon changes to the language included in our January 24, 2025, letter are noted in the attached label.

### **APPROVAL & LABELING**

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

### **CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit, via the FDA automated drug registration and listing system (eLIST), the content of labeling [21 CFR 601.14(b)] in structured product labeling (SPL) format, as described at FDA.gov,<sup>1</sup> that is identical to the enclosed labeling (text for the Prescribing Information) and include the labeling changes proposed in any pending “Changes Being Effectuated” (CBE) supplements.

---

<sup>1</sup> <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>

Information on submitting SPL files using eLIST may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.<sup>2</sup>

The SPL will be accessible via publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this BLA, including pending “Changes Being Effectuated” (CBE) supplements, for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 601.12(f)] in Microsoft Word format that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

### **REQUIRED PEDIATRIC ASSESSMENTS**

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients (which includes new salts and new fixed combinations), new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication(s) in pediatric patients unless this requirement is waived, deferred, or inapplicable.

Because none of these criteria apply to your supplement application, you are exempt from this requirement.

### **REPORTING REQUIREMENTS**

We remind you that you must comply with reporting requirements for an approved BLA (in 21 CFR 600.80 and in 21 CFR 600.81).

If you have any questions, contact Dawn Williams, Safety Regulatory Project Manager, at (301)796-5376 or dawn.williams@fda.hhs.gov.

Sincerely,

*{See appended electronic signature page}*

Tatiana Oussova, MD, MPH
