Dear Ms. Pavithra:

Please refer to your supplemental biologics license application (sBLA) dated and received February 16, 2022, and your amendments, submitted under section 351(a) of the Public Health Service Act for Aimovig (erenumab-aooe) injection.

This Prior Approval sBLA supplemental biologics application provides for updates to the autoinjector Instructions for Use (IFU) and for new autoinjector Reference Guides (RG) to harmonize the device-related instructions across multiple Amgen products.

### **APPROVAL & LABELING**

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

### **CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit, via the FDA automated drug registration and listing system (eLIST), the content of labeling [21 CFR 601.14(b)] in structured product labeling (SPL) format, as described at FDA.gov,<sup>1</sup> that is identical to the enclosed labeling (text for the Reference Guide and Instructions for Use) and include the labeling changes proposed in any pending "Changes Being Effected" (CBE) supplements.

Information on submitting SPL files using eLIST may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.<sup>2</sup>

The SPL will be accessible via publicly available labeling repositories.
