SUPPLEMENT APPROVAL

Amgen Inc.
Attention: Pavithra Arunachalam, PharmD
Manager, Regulatory affairs
One Amgen Center Drive
Thousand Oaks, CA 91320

Dear Ms. Pavithra:

Please refer to your supplemental biologics license application (sBLA), dated and received December 3, 2022, and your amendments, submitted under section 351(a) of the Public Health Service Act for Aimovig (ereumab-aooe).

This Prior Approval sBLA provides for modifications to the Prescribing Information (PI) to update the long-term safety exposure information in the Clinical Trials Experience subsection (6.1) and to add immunogenicity information from a long-term safety study. To align with recommendations in the draft guidance, Immunogenicity Information in Human Prescription Therapeutic Protein and Select Drug Product Labeling — Content and Format (Feb 2022), the Immunogenicity subsection was relocated from the Adverse Reactions section (previously 6.2) to the Clinical Pharmacology section (12.6).

APPROVAL & LABELING

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit, via the FDA automated drug registration and listing system (eLIST), the content of labeling [21 CFR 601.14(b)] in structured product labeling (SPL) format, as described at FDA.gov,¹ that is identical to the enclosed labeling (text for the Prescribing Information) and include the labeling changes proposed in any pending “Changes Being Effectuated” (CBE) supplements.

Information on submitting SPL files using eLIST may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.²

The SPL will be accessible via publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this BLA, including pending “Changes Being Effectuated” (CBE) supplements, for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 601.12(f)] in Microsoft Word format that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
