Dear Hari Miskin:

Please refer to your supplemental biologics license application (sBLA), dated and received May 3, 2024, and your amendments, submitted under section 351(a) of the Public Health Service Act for Briumvi (ublituximab-xiiv) injection for intravenous use.

This “Changes Being Effectuated” sBLA provides for revisions to Sections 8 (Use in Specific Populations) and 17 (Patient Counseling Information) of the Prescribing Information to provide information regarding a Pregnancy Registry, with corresponding changes to the Medication Guide.

### **APPROVAL & LABELING**

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

### **CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit, via the FDA automated drug registration and listing system (eLIST), the content of labeling [21 CFR 601.14(b)] in structured product labeling (SPL) format, as described at FDA.gov,<sup>1</sup> that is identical to the enclosed labeling (text for the Prescribing Information and Medication Guide) and include the labeling changes proposed in any pending “Changes Being Effectuated” (CBE) supplements.

Information on submitting SPL files using eLIST may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.<sup>2</sup>

The SPL will be accessible via publicly available labeling repositories.
